Got Missing Figures

THE General Manager was presenting plans for an extension of the factory to the company's directors at Detroit. He found that he had left an estimate sheet in his desk at the factory. He called up the factory on the Bell Long Distance Telephone. His assistant read the figures to him and the directors were able to act without delay.

Annoying delays are avoided by the use of the Bell Telephone.

CLAIM HUNGER GROVE THEM TO ROB A STORE

TWO NEGROES ARRESTED FOR BREAKING INTO PLACE BELOW CITY

GOT FOODSTUFFS

Richard Jones' Store on Emerson Bridge Road Entered Monday Night---Negroes in Jail.

"Boss, I ain't had nuthin to eat at my house an' I stole dem things cause I was hungry," are the words of explanation spoken last night by Alvin Thompson for himself and his partner-in-crime, Joe Bates, as they stood gazing through the bars of the county jail last night in wide-eyed amazement at the thought that the man on the outside to whom they were talking was going to put their names in the paper.

The two negroes were arrested yesterday afternoon by Deputy Sheriff Olin Sanders and Deputy Jim Williams at their homes several miles below the city. Monday night they broke into the store of Mr. Richard Jones, who lives three miles south of the city on the Emerson Bridge road. The staple fastening of the door was drawn with a pick and upon entering the negroes helped themselves to some cheese, crackers, and other articles of food and a pair of shoes.

The sheriff's office was notified of the robbery yesterday morning and immediately put officers to work on the case. The officers spent practically the entire day in rounding up the negroes. One of the negroes has been living on the plantation of Mr. Ham Acker, while the other lived on the Majesty place. Both negroes admit that they broke into the store, and stated that they did it because they were hungry and had nothing to eat at home.

When the reporter called at the jail about 6 o'clock both were sleeping soundly in their cells. A good supper each at the hands of the county authorities and warm dry beds in which to sleep had done the work.

PROHIBITION BILL HAS BEEN PREPARED

SPARTANBURG, Jan. 5.—Under the direction of the headquarters committee of the Anti-Saloon League, Senator Howard B. Carlisle has drawn the Statewide prohibition bill that will be introduced in the approaching legislature and made the basis of the fight by the prohibitionists of the State before that body. It will be submitted to the members of the committee tomorrow, but may not be made public for the time being.

The document is said to be simple and brief and seeks to apply to the whole State the liquor laws that apply to the dry counties at the present time. During the past week several conferences have been held by members of the headquarters committee, and it is said they are confident from what they hear from over the State that prohibition will win in the legislature and the question be submitted to the people at an election to be held next fall.

An interesting rumor is current locally as to an amendment to existing liquor laws to be advocated by the advocates of prohibition. It will be proposed to make it unlawful for any person to receive more than one gallon of liquor per month, according to this report. At present the law allows individuals to receive for personal use packages of four and a fraction gallons as often as he desires.

It is understood locally that the Spartanburg delegation of seven members of the house and one senator will support that Statewide prohibition bill.

Protests Pouring In

WASHINGTON, Jan. 5.—Many protests against that section of the immigration bill which bars members of the African race have begun pouring in at the White House. President Wilson will not indicate his position until the bill finally is sent to him for his signature or veto. Conference on the measure were appointed today and the conference will begin tomorrow.

Indian Cotton Crop

WASHINGTON, Jan. 5.—A yield of 1,000,000 four hundred bales or over per acre, less than last year, is the Indian government's latest estimate of the Indian cotton crop for the 1914-15 season, reported in consular dispatches today. The cotton acreage is placed at 24,000,000 acres. The final report will be announced in February.

HERE MISTRIALS END A COLORED CATARRH

How To Get Relief When Head and Nose are Stuffed Up.

Count off! Your cold is dead or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more sniffling, hawking, mucous discharge, dizziness or headache; no struggling for breath at night.

Get a small bottle of Dr. Williams' Cream Balm from your druggist and apply a little of this fragrant anesthetic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed membrane, giving you instant relief. Head aches and catarrh yield like magic. Don't stay snuffed up and miserable. Relief is sure.

The Sultan of Turkey.

The sultan of Turkey has been driven into the war against the allies by the advisers about him who are friendly to Germany. He is not believed to be much of a force in the government and it is not thought that he had much to say about the decision of Turkey to join with Austria and Germany.

LATEST SENSATION IN THE WORLD OF MOVIES

"The Exploits of Elaine" Will Be Shown at The Paramount.

Beginning next Thursday the Paramount Theatre will show at regular intervals the latest sensation in the world of "movies," the new production being shown as "The Exploits of Elaine," and featuring the delightful Pearl White and such other well known stars as Sheldon Lewis and William Riley Hatch.

"Craig Kennedy," scientific detective, promises to outlive the famed Sherlock Holmes, from a popularity standpoint. Kennedy doesn't use bulldog methods and strong-arm principles to ferret out crime. He depends upon scientific methods in running down criminals.

In "The Exploits of Elaine," the latest and conceded to be the very best piece of work yet turned out by Arthur B. Reeve, creator of the "Craig Kennedy" detective stories, science is again put to work in the solution of the mystery surrounding this attractive young girl, who happens to be none other than the pretty Pearl White, so recently a spectacular figure in "The Perils of Pauline."

The Elaine series is being put on. The film was made by the Pathé establishment in collaboration with the Hearst syndicate of newspapers. This combination has developed one of the country's biggest film-producing companies, and the films it turns out are conceded to be among the very best to be seen anywhere in the world.

The company that "had" produced "The Exploits of Elaine" is an all-star cast and is headed by that sterling actor, Arnold Daly. Associated with him, in addition to Miss White, are Sheldon Lewis, William Riley Hatch and others. Mr. Reeve, the author of the serial, has in collaboration with him the well-known playwright Charles L. Goddard. Together they have solved a piece of entertaining fiction, based entirely upon scientific deductions, which promises to eventually become the greatest serial story ever screened.

FUEBIA FALLS AFTER SIX HOURS OF HARD FIGHTING

(CONTINUED FROM PAGE ONE.)

Troops escaped is not known, but early reports of the fighting indicate that the greater part of them either were killed or made prisoners. From these reports it would seem that in few of the battles that have occurred in Mexico has the slaughter been so swift and so great.

The hardest part of the battle was fought outside the city proper. The dead and wounded are said to cover the ground at some places and to be strewn plentifully across a field whose diameter from west to east is some 12 miles.

Communication with Puebla was not established until tonight. Who was in command of the capital forces is not yet known, but their few are reported to have been Andre Almazan and Estelmo Zapata, a brother of Emiliano.

A brief message received at midday announced the result of the fighting and the garrison in Vera Cruz with their hands, paraded the streets in honor of the victory. The ringing of church bells conveyed the news to the populace.

Heavy fighting is still in progress west of Puebla between General Obregon's forces and reinforcements sent from the capital. Three divisions did some work on the day, according to General Obregon.

It is now said that General Almazan was in charge of the operations for the capital forces, supported by Generals Cortes and Arzobispo of the federal army, and Generals Huandara, Portillo, Bonilla and Varona.

DEAD FOR MORE THAN TWO YEARS

Negroes Pardoned by Governor Because Died in County More Than Two Years Ago.

(By Associated Press.)

SPARTANBURG, S. C., Jan. 5.—When the county authorities received official notice today from the governor's office that a full pardon had been granted by Governor Blease to Anna Drummond, a negro convicted of the murder of her husband in this county three years ago, it developed that the woman had been dead for more than two years. While a prisoner in the county jail soon after her conviction she died leaving an infant whose death soon followed.

Three Electrocuted

TRENTON, N. J., Jan. 5.—Three men were electrocuted at the State prison tonight, marking the first time execution since the electric chair was installed in New Jersey. The three were negroes and paid the death penalty for murder.

Published Names of Detained Steamers.

LONDON, Jan. 5.—A list of the steamers bound from the United States to South American ports, whose cargoes or part of them have been detained in British ports, is given in an official announcement in the London Gazette.

DISAPPEARANCE \$52 PUZZLES THE POLICE

MONEY STOLEN MONDAY NIGHT FROM HOME ON SOUTH MAIN

HAVE NO CLUES

Two Negroes Who Were Under Arrest Have Been Released. Mystery.

The theft early Monday evening of \$52 from the residence of Frank P. Robertson, 505 South Main street, has puzzled police detectives at work on the case no little. They are without a single clue as to who took the money, and two negroes who were detained on suspicion have been released, as no evidence could be had pointing to their connection with the robbery.

The money was in a bureau drawer in a room used by the children. Mrs. Robertson was in the room not more than 30 minutes before the money was missed, but whether she saw the money when she was in the room at this time, police were not prepared to state. The matter was reported to police headquarters Monday night, and immediately officers were set to work to ferret out the thief, if possible.

Two negroes who worked about the premises were arrested that night and held in the city jail that night and up until late yesterday afternoon, when they were released.

The money was in currency, silver and one check for \$2.50. This check was given Mr. Robertson by a party at Belton, and immediately after the robbery he notified the man who gave him the check to report the matter to the bank and have payment on it held up.

TURKS SUFFER WORST DEFEAT OF THE WAR

(CONTINUED FROM PAGE ONE.)

crossed Bukovina, which is now virtually in their possession.

In North Poland, where Russia is confronted with the most serious task, the weather is proving a useful ally. The Germans, according to their accounts, are making only slow progress with their offensive operations.

Military men look for bigger events between the lower Vistula and the East Prussian frontier. The Russians hold the greater part of the intervening territory, and unless engaged when the river freezes, would fall on the German flank south of the river. It is believed here, therefore, that the Germans plan a movement from Thorn and East Prussia to prevent this action. The fighting would take place in the open.

Except at the two extreme wings on the Belgian coast and in Upper Alsace, where the Allies have gained some ground, fighting on the western front has been done by sappers, miners and artillery. Only at isolated points has the infantry been given the opportunity. A few hundred yards have been gained by the Allies among the dunes of Flanders.

Great interest attaches to French operations in Upper Alsace. The capture of Steinbach was accomplished after almost superhuman efforts. Now the French are attempting to force their way through to Cernay (Sennheim) the possession of which would open the door to Muelhausen.

One of the lessons the war has taught Russia is that the port of Archangel, its only large seaport on the north coast and the most northerly point in the railway system of Europe, can be kept open most of the winter with the aid of ice-breakers. Archangel generally is frozen over for months but it has been kept open this far.

The house of lords will meet tomorrow and Earl Kitchener, secretary for war, is expected to make a statement on the progress of the war and British preparations.

HOWER IS NAMED VICE PATTERSON

Newberry Man Succeeds Barnwell Senator as Assistant Physician of State Hospital.

Frank D. Mower, M. D., of Newberry has been appointed assistant physician of the State Hospital for the Insane, for duty at the State Park plant, to fill the unexpired term, ending next July, of A. D. Patterson, M. D., resigned.

Dr. Patterson is State senator from Barnwell County. He recently filed with the board of regents at the academy his resignation, effective December 31, in order that he might give some attention to his private practice in Barnwell before returning to Columbia for the legislative session which begins January 12.

CALOMEL DYNAMITES YOUR LIVER! MAKES YOU SICK AND SALIVATES

"Dodon's Liver Tonic" Starts Your Liver Better Than Calomel and You Don't Lose a Day's Work

Listen up your sluggish liver! Feel fine and cheerful, make your work a pleasure; be vigorous and full of life. Don't take a nasty, dangerous calomel because it makes you sick and you may lose a day's work.

Calomel is merely a cathartic which causes distress of the bowels, therefore harmful and even fatal. Calomel cracks up your liver, the dynamite breaking it up. That's just what that awful nausea and vomiting is. Listen to me! If you want to enjoy the sweetest, purest liver and bowel cleansing you ever experienced just take a spoonful of Dodon's Liver Tonic.

Tonight: Your druggist or dealer sells you a 50 cent bottle of Dodon's Liver Tonic under my personal money-back guarantee that each spoonful will clean your sluggish liver better than a dose of any calomel and that it won't make you sick.

Tomorrow: Your liver is fast liver medicine. You'll know it next morning because you will wake up feeling fit. Your liver will be working; headache and dizziness gone; stomach will be sweet and bowels regular.

Dodon's Liver Tonic is entirely vegetable, therefore harmless and non-salivating. Give it to your children. Millions of people are using Dodon's Liver Tonic instead of dangerous calomel now. Your druggist will tell you that the sale of Calomel is almost entirely gone.
